_nology | Junior Software Development Coach
FEBRUARY - JUNE 2020, LONDON

Guided the students through the course as they learn coding languages such as HTML, CSS, and JavaScript.
Able to build rapport with the students in a short time, showing great empathy and support. I brought this positivity to remote working too, and continued to support students.

Experience gained using jQuery, SASS module and Firebase as a NoSQL database.
Increased my ability to focus and my objective-oriented approach, whilst acquiring good skills in organisation, time management and prioritisation.

Founders and Coders | Student
JUL 2019 - NOV 2019, LONDON

Full-time peer-led coding bootcamp focused on modern web development using front and back-end JavaScript. During the course I worked with frameworks and libraries including React, Node, Express and Styled Components, as well as PostgreSQL databases and testing libraries like Tape and Supertest. Emphasis on Agile development, TDD methodology and version control using Git and GitHub.

Selected Projects:

Savage - JavaScript, HTML, CSS, Node.js, PostgreSQL, Heroku
Postcode Autocomplete - JavaScript, HTML, CSS, Node.js, Api , Heroku
Crime Checker - JavaScript, HTML, CSS, APIs, Tape
ABCD-to do app - JavaScript, HTML, CSS
ABCD-website - JavaScript, HTML, CSS

Self-Guided Learning | Student
DECEMBER 2018 - PRESENT, LONDON

Before joining Founders and Coders I taught myself the fundamentals of HTML, CSS and JavaScript, while working part time, using various online resources, including W3Schools, Codecademy, FreeCodeCamp and CodeWars.
